

About Urine Tests at Medical Institutions

If, at the time of your periodic health checkup, it is inconvenient for you to have the required urine test conducted at the University, you can instead have the test done at a medical institution and then submit the results to the Health Administration Office.

If you would like to have a urine test done outside of the University, please contact a local internal medicine clinic to conduct a urine test.

Please note that **there is a fee for urine tests at medical institutions.**

[Required Urine Test Items] Protein, sugar, and occult blood (if you are getting retested: the specified tests only)

[What to Bring to the Health Administration Office After Completing a Urine Test at a Medical Institution]

*We may make photocopies of documents.

- Student ID
- Urine Test Form provided at the University health checkup (blue or yellow form)**
- Urine test results provided by the medical institution at which you were tested (original)
- Original receipts and statements issued by the medical institution at the time of the urine test

(Your full name, the name of the medical institution, the date and time of the test, and the fact that a urine test was conducted must be included.)

[Date and Time for Submission of Urine Test Results]

Tuesday, May 7, 2024 to Thursday, May 23, 2024 (Reception Hours: 16:00-17:00), excluding Saturdays and Sundays. The hours and deadline are strictly enforced.

We will not conduct retests if there are any abnormal levels ((+) or more). Please consult with a medical institution.

[Submission Location]

1st Floor, Health Administration Office, Higashiyama Campus (please use the intercom)
